How Much Can I Save?

The average resident saves **\$180 per year** after participating in Home Energy SolutionsSM. Additional weatherization can lead to more savings.

How Does it Work?

- 1 Energy Evaluation and Air Sealing.**
For \$50 (or at no cost for income-eligible), energy-efficiency technicians spend two to four hours evaluating energy use and sealing air leaks.
- 2 Deeper Weatherization Measures.**
The technicians may recommend deeper measures, if needed, such as insulation. Current rebates of up to \$1.70/square foot for insulation.
- 3 Our partners will work with you** to provide quality service, timely responses to any questions and trusted resources to assure your satisfaction. Sign up today — and start saving!!

Bringing Energy Solutions to Waterbury

Waterbury Home Energy Action is an outreach and education campaign to help residents learn about energy efficiency solutions that save you money and make your home more comfortable! We provide you with the information on available programs, connect you with highly qualified contractors and help you every step of the way to take advantage of the many incentives available through Eversource, an Energize ConnecticutSM Sponsor!

Did You Know?

No matter how you heat your home, we can show you how energy efficiency improvements can reduce your energy demand, save you money and make your home more comfortable. **Sign up today and learn about immediate and long term-savings.**

Home Energy Solutions is available to eligible customers for \$50, paid at the time of the visit. You may also receive **a rebate for up to \$1.70 per square foot on approved insulation projects** recommended during your visit.

An energy-efficient home is more than saving money.

It's comfort. Convenience. The health of your family. And, how your home works efficiently and more economically. A home you value *more*.
