

## ***CUTS TO EPA Would:***

### **POLLUTE OUR AIR & WATER**

Weakened enforcement of clean air and clean water laws means more pollution in our lungs and drinking water.

### **CRIPPLE RESPONSE TO ENVIRONMENTAL DISASTERS**

Toxic spills, wildfires, and other crises will take longer to contain, putting lives in danger.

### **ELIMINATE SUPPORT FOR COMMUNITIES**

Neighborhoods suffering from pollution and industrial waste will lose critical support to clean up their water and land.

### **MAKE US SICK**

Less monitoring of hazardous chemicals means more exposure to dangerous toxins in everyday products.
